Isaiah Sanchez

Software Engineer

SUMMARY

Customer focused, and detail oriented software engineer with a deep interest in AI. Demonstrated history of success creating front and back end web applications with an overarching strategic vision. Looking to be a key addition to an impactful tech company with a global presence.

WORK EXPERIENCE

Software Engineer at 100devs | Los Angeles, CA

March 2022 — Present

- Collaborated with other engineers to build up to date and responsive web applications adhering to industry standards

- Formulated and built full-stack applications with semantic clarity and structure.

- Assisted in client consultations, translating business requirements into actionable technical specifications.

Recent Projects:

Progress Exercise and Rehab Log (Fullstack Web App) – Designed for user-friendly interaction, this application includes auth with Passport and allows the user to view, edit, and add to their personalized list of exercises, with the entries sorted by last engagement to streamline user access and interaction.

Ace Sign Painter (Web App) – This web app is a dynamic landing page for a sign painting business located in LA, featuring a catalog of services, a portfolio displaying previous works, and includes convenient social links and a concise contact form for ease of communication with potential clients.

Fresh Out Off… Smart Shopping App (Full Stack Web App) – Collaborated with a team of three software engineers for eight weeks to develop an app allowing users to create, manage, and categorize personal lists. Included features to dynamically organize items and estimate next purchase dates based on past purchase history.

Other Projects: Productivity Planner Todo App, Trivia Game app using Trivia API, New Cocktail App with API integration and many more located on my Github

Head Athletic Trainer Providence Holy Cross Hospital | Los Angeles, CA

January 2018 — June 2022

- Served as the representative for Providence Holy Cross Hospital, delivering Athletic Training services at a local high school.

- Conducted after-school clinics for all 18 sports teams, offering emergency care, therapeutic interventions, rehabilitation, and clinical diagnosis.
